Intelligent Automation To Transform Your Business

Quill

Let's face it - enterprise reporting can be extremely time-consuming. A recent study has shown that analysts spend over 50% of their time producing hand-written summaries and reports. This is reducing your team's productivity and potentially exposing your organization to risk.

Quill is an intelligent automation platform that allows Enterprise organizations to transform reporting work-flows with natural language generation (NLG). Fortune 500 Enterprises including Deloitte, USAA and Mastercard use Quill to drive transformation across their organization.
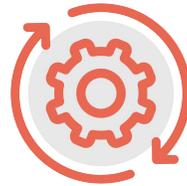

Benefits Of Intelligent Automation

Time Savings
Redeploy time saved across your workforce to initiatives that will grow your business.

Process Improvement
Improve the scale, reach and consistency of your reporting.

Accelerated Insights
Add automated, plain-English commentary to your business intelligence tools.

> **A massive amount of time and effort has been spent in gathering data and no human can look at all of it. Narrative Science offers us opportunities to more efficiently sift through large amounts of data and bring out insights more quickly.**
